

Water saving Tips From Bristol Water

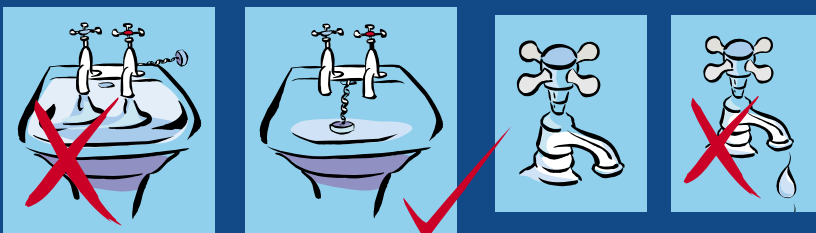

Shower - A five minute shower uses 35 litres of water

Bath - A half full bath uses approximately 80 litres of water

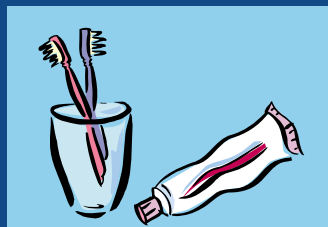

Washing your Hands and Teeth -

Washing your hands under a running tap can be very wasteful - always put the plug in and save water

Using a glass of water to rinse your mouth afterwards instead of a running tap can save as much as 4 litres

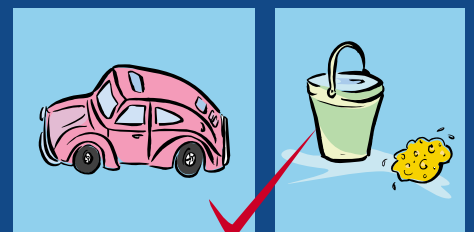

Washing Machine -

Washing machines on a normal cycle use approximately 80 litres of water - wait until you have a full load

Washing your Car -

Running a hose for 1 minute uses approximately 30 litres of water

= 10 litres
