## The installation of a water fitting in connection with:

1 The erection of a building or other structure, not being a pond or swimming pool

2 The extension or alteration of a water system on any premises, other than a house

3 A material change of use of the premises

## The installation of a water fitting in connection with:

4 (a) a bath having a capacity, as measured to the centre line of the overflow, or more than 230 litres \*

4 (b) a bidet with an ascending spray or flexible hose #

4 (c) a single shower unit incorporating two or more shower outlets \*

4 (d) a pump or booster drawing more than 12 litres per minute, connected directly or indirectly to a supply pipe

4 (e) a unit which incorporates reverse osmosis.

4 (f) a water treatment unit which produces a waste water discharge or which requires the use of water for regeneration or cleaning

4 (g) a reduced pressure zone (RPZ) valve assembly or other mechanical device for protection against a fluid risk which is in Fluid Category 4 or 5 #

4 (h) a garden watering system except one designed to be operated by hand \*

4 (i) any water system laid outside a building either less than 750mm or more than 1350 mm below ground level

5 The construction of a pond or swimming pool over 10,000 litres capacity, designed to be replenished automatically with water from Bristol Water.

(\*) items marked do not need a plan or diagram of the part of the premises which relates to the proposed work showing the pipework and fittings to be installed

(#) items marked do not need prior consent from Bristol Water if an Approved Plumber undertakes the work but, on completion, a copy of the compliance certificate must be sent to Bristol Water and to the person who asked for the work to be done.
