

BE A **b** HERO! SAVE WATER

Hi, my name is **Hydro Harry** and I'm here to help to save water at home!

The average person in the Bristol area uses around 150 litres* of water every day. We all need to try hard to reduce our water use so we have enough for everyone in the future. Are you up for the future challenge?

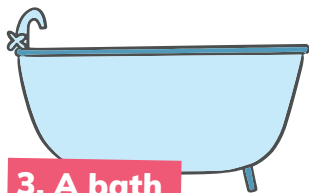

Do your own investigations to estimate how much water would fill...

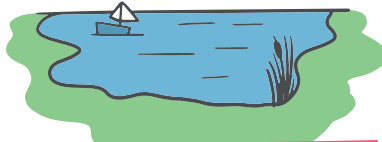

1. An Olympic-size swimming pool?

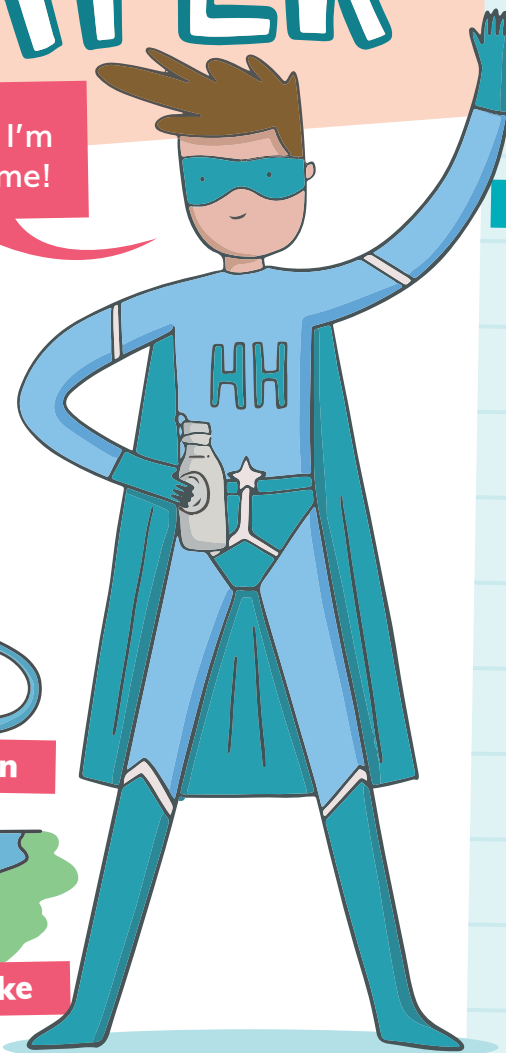

2. A watering can

3. A bath

4. Chew Valley Lake

Saving water at home with Eco Ninja!

We use water for lots of different things. We **drink** it, we **wash** with it in the **bath** or **shower**, some of us go **swimming** in it and we **flush** it down the **loo**.

Which of these statements do you agree or disagree with?

- | | | | |
|--|--|-------------------------------------|--------------------------|
| | 1. Turning the water off when you brush your teeth will save water. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 2. Flushing the toilet less often will help save water. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 3. Taking baths uses less water than taking showers. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 4. Using a bucket of water instead of a hose pipe to wash the car will reduce water use. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 5. It's impossible to take a shower that is less than four minutes long. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 6. Capturing the rain in a water butt to use for your garden is a good way to save water. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 7. Putting lots of small loads into the washing machine will help to cut down your water use. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| | 8. Filling the washing up bowl instead of washing plates under a running tap will save water. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

* A litre is about the same as two large glasses of water

Why not ask a grown-up what they think – together you could save money as well as water...
